Verification code: SAMPLE00

This certificate evidences completion of the course identified above. The stated duration is an estimate of course length, not a measurement of time spent by the learner. Function-specific training must match each employee's actual duties: the employer must supplement it for specialized tasks and remains responsible for compliance under 49 CFR 172.702(b). It does not include driver training under 49 CFR 177.816 or any CDL hazardous materials endorsement training, and does not by itself satisfy 49 CFR 172.704(a)(3)(ii), which requires training on the protective measures in place at the employee's own facility. HazTeam Ready is an independent training provider and is not affiliated with, endorsed by, or certified by DOT or PHMSA.
